

Shadow Puppet Edu

COST: Free app.

Product-Based

Rating: 4+

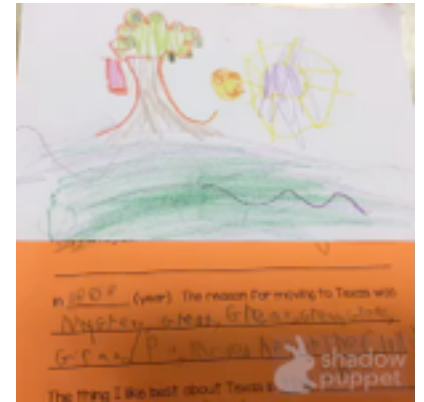

Web Version: No

Accounts: No

Reporting: Export recordings to the camera roll, via email, or through Seesaw, Twitter, Youtube, iMessage, or many other social networks

Notes: You can only record in one take and cannot edit a page recording other than just re-recording. It is possible to re-record a page without affecting previous pages. This app is free and includes no ads or log-in.

Author: Holly Moore

SUMMARY:

ShadowPuppet EDU is a presentation app for sharing images and voiceover with others. Users can add images from their camera roll or a variety of built-in searches (e.g., maps, Met Museum of Art, Nasa, Flickr Creative Commons) and then add simple text and voiceover to each image. Users can even add music! Once complete, users can share their creation in a variety of ways (e.g., email, links, or just save to their camera roll and share via Showbie or Seesaw Learning).

ELA: Students can create & share narrative, expository, persuasive, or descriptive writing. Students can create multimodal presentations that include image, text, voiceover, and music.

ADDITIONAL SUPPORT RESOURCES:

- Watch this [short video](#) tutorial on how to create a ShadowPuppet.
- Check out teacher stories on how they use Shadow Puppet [here](#).

Across The Classroom

Science Vocabulary Words: Students can draw and explain organism life cycles or explain scientific explorations.

SEL: Children can create how-to stories on important topics like sharing, internet safety, or respectful dialogue.

Visible Thinking: Students can combine image, text, and audio to demonstrate their knowledge of a concept.
